Re: U.S. v. Reilly Tar & Chemical Corporation
File No. Civ. 4-80-469

Dear Ms. Comstock:

As requested by you and David Hird, Steve Riner has compiled the expenditures made by the United States under the RCRA and CERCLA grants to Minnesota for the Reilly Tar & Chemical Corporation project. The RCRA expenditures are covered in the the enclosed letter and attachment from John D. Retzer (MPCA) to Paul Bitter (EPA), dated February 10, 1984, and numbered 9627962-964. The CERCLA expenditures through September 30, 1984, are covered in the print out showing Expenditures by Quarter under the Reilly Tar Cooperative Agreement. The lines for "Contracts" include the Hill, Hickok and USGS contracts. The lines for "Other" include contracts with the State's Land Management Information Center and with the University of Minnesota (Computer Center).

The expenditure summary for the first quarter of the federal fiscal year 1985 (October-December, 1984) should be ready shortly and will show expenditures of roughly \$80,000.00 for the Hickok contract and for personnel/fringe/indirect costs. Since the close of that quarter, an additional \$45,000.00 has been approved for payment under the USGS contract.

Very truly yours,

STEPHEN SHAKMAN
Special Assistant
Attorney General
